

Public Lottery Procedures

Primary Lottery Procedures

1. A single lottery ball has been assigned to each unique proposed dispensary address regardless of the number of applications for that address (See Attachment A).
2. The address lottery balls will be placed into the lottery machine and will be selected at random until all balls are pulled.
 - a. The selected lottery ball address will be announced and plotted on the buffer map (See Buffer Map Legend).
 - b. If the address violates the 1,000 foot buffer between any previously plotted dispensary location(s), that lottery ball will be placed on a Pending/Ineligible list ⁽²⁾. Otherwise:
 - i. If only one application exists for that selected address, that application will move on to Phase III: Department Reviews and Inspections.
 - ii. If multiple applications exist for the selected address due to the property owner authorizing multiple applications, the applications for that address will take part in a secondary lottery which will be conducted later that day (see SECONDARY LOTTERY below).
3. Staff will pull lottery balls until the total number of balls pulled reaches the maximum number of licenses to be awarded (10). Staff will then pull the remaining lottery balls to be added to the Pending/Ineligible List.

Secondary Lottery Procedures

1. A lottery ball has been assigned to each application eligible for the public lottery (See Attachment B).
2. All application lottery balls for the eligible licenses (10) will be placed into the lottery machine and will be selected at random until every ball has been pulled.
 - a. If the application lottery ball is the first selected for its address, the application will move on to Phase III: Department Reviews and Inspections.
 - b. If the application lottery ball is not the first selected for its address, that application will be placed on the Pending/Ineligible list.
3. Once all the eligible application balls have been pulled, all application lottery balls for the ineligible licenses will be placed into the lottery machine and will be selected at random until every ball has been pulled.
 - a. The order in which the balls are pulled will be recorded. In the unlikely event that an address location which won the lottery cannot proceed through the application process, the City will refer to the Pending/Ineligible list for the next eligible address and application.

⁽²⁾ **Lottery winners are not guaranteed a license.** All other requirements established in the Long Beach Municipal Code and other applicable laws must be met in order to obtain a dispensary license. In the event that an applicant wins the lottery but is unable to obtain a license at the proposed location, the City will refer to the Pending/Ineligible List to determine which replacement application may move on to Phase III. Replacement applications will be selected based upon the order of locations on the Pending/Ineligible list, review of the 1,000 foot dispensary buffer requirement, and completion of any applicable secondary lottery procedures. The Pending/Ineligible list will expire upon that date that the City issues a total of 32 dispensary licenses.

**** Addresses identified with asterisks are within 1,000 feet of a Priority applicant. No Priority dispensary licenses have been issued. In the event that a Priority license cannot be obtained, the City will refer to the Pending/Ineligible List to determine the next available license to be awarded.**

*****Buffer determination that the following address is within 1,000 feet of a Priority applicant is pending further review.**

Attachment B: Lottery Balls Assigned by Application

Addresses with One Application Each (Exempt from Secondary Lottery)

Applicants with only one application per address do not have an assigned lottery ball in the secondary lottery. If only one application exists for the address ball selected in the primary lottery, that application will move on to Department Reviews. Below is a list of the marijuana dispensaries with only one application per address.
